Jonas: Recognition and working method

Recognised metal detectorist (recognition by agentschap Onroerend Erfgoed).

How I work

- I only search with the permission of the owner or user of the land.
- I report my archaeological finds via the Onroerend Erfgoed reporting tool.
- I work according to the Onroerenderfgoeddecreet and the Code van Goede Praktijk.
- I never publish exact find spots, only the region.

Permissions

- Municipality of Herselt
- Municipality of Heist-op-den-Berg
- Municipality of Scherpenheuvel-Zichem
- Flemish Land Agency (VLM)

Farmers in Blauberg and Averbode

Farmers in Blauberg and Averbode gave me permission to search their land. It is an ongoing relationship: I come back regularly, work around the crops, leave the land as I found it and show them what I find. Many of them find the history of their own field interesting.

Projects

Hertberg: 20 years under provincial ownership (Provincie Antwerpen)

Collaboration with the Province of Antwerp, Hertberg domain, on a project marking 20 years of the Hertberg under the province's ownership.
